party has been entrusted with the power of government not only in the State, but in the nation, so long that their political bosses, the ring-m the machine, if you please, of that party have betrayed the people's interests. And upon this very question of taxation what have they done to us? Why is it that MARGIN OF ONLY TWO VOTES your taxes are increasing year after year? Let me tell you why it is. Because, com mencing with the year 1886, to be pre cise, just 26 years ago now, not the Republican party, not the Democratic party. not any party, but the political bosses passed a law through our Legislature by which all the railroad property in our State, amounting to millions, and millions and millions of dollars, was taken out of the grand list of each and every town through which that railroad passed. And from then on, they have continued along the same lines of legislation until now Democratic artillery opened the 1912 not only all the railroad property in our State, but all the property belonging to our great insurance companies has been taken out of the grand lists of all our veto, the House to-day re-passed the towns, likewise the property of all our vetoed steel and fron tariff bills within guaranty companies.-that means another kind of an insurance company-the prop- from the White House with the Prosierty of all our great express companies the property of all our great telegrap! companies, of all our great telephone the two-thirds necessary to override the companies, the steamboat companies, the President. car and transportation companies, mortgage, loan and investment companies, and was engaged in passing the democratic astly the property of banks. said to you that this law was not enacted by the Republican party, by the Democratic party, or by any party, but on the contrary, this law was enacted by the crooked political bosses in the Legislature, by crooked political who were controlled and probably hired by the railroads. I submit to you that no honest, conscientious legislato ever passed such a law as that, because that rate of taxation, that law, that bur den imposed upon the people, would make a lightning rod agent look ashamed.

Mr. Howe then went into details and produced figures which convinced him that the railroads in the State do not pay their share of taxes, and related some his experiences while a member of the Legislature four years ago in trying to secure legislation which he believed to be in the interest of the people and which was killed by the republican machine through the Senate. He continued:

You have all heard that the Senate a Washington, the Senate of the nation. was controlled by wealth. I say to you that the Senate in the State of Vermont a absolutely controlled by the machine. say to you that the Senate in Vermont s as much controlled by the machine, and has been for many years, as the Senate in the nation. Now, was that fair? Was that right? Just think of the reason assigned for passing that bill? Why, the don't care so much about the people, so with the bill presented in the House by much about the good of the people, so much about the good of the community as I don't know what. It isn't right.

These laws were passed, no by Legislature, but by the bosses, not by

Now, have we seen anything in the pa pers about this rate of taxing all these great enterprises? Have we heard any of the republican orators discussing rate of taxation paid by these great interests? Have we heard any of our gov ernors in the past when they sent the! message to the General Assembly, call the attention of our lawmakers to the rate of taxes paid by the individual? Have we It is true that all the newspapers in the State of Vermont, with possibly two ex ceptions, are members of the republican trines, and principles, and they will say, as I have said, that the Republican party should expose the fraud that is being perpetrated upon the freemen of Vermont off would go that editor's head. If one of the politicians in Vermont should get off would go his head.

Democratic Leader Underwood demanded immediate action on the steel bill as company, appraised at \$1,222,400. Their soon as the President's veto message was received. A lengthy legal debate ensued. Finally Speaker Clark ruled that the matis enalyman of the executive committee \$5,527.15. The rate on the dollar was \$,697, ter was one of constitutional privilege and sustained Mr. Underwood. Mr. Mann promptly appealed from the ruling and demanded a roll call. The chair's position was sustained, 341 to 10, and the repassage of the steel bill followed.

Majority Leader Underwood made a spirited attack on the motives that prompted Taft to veto the steel bill which he said, had been passed by a republican Senate with but two slight amendments. Mr. Underwood explained that the bill imposed a duty of approximately 22 per cent. on steel products and that 10 per cent. would cover the difference in cost of labor here and abroad.

resentative Payne of New York, former Speaker Cannon and other republican leaders. Mr. Cannon charged the democrats with "playing politics" in press the vote and aroused Mr. Underwood's ire by declaring that the majority leader would be the most disappointed man of all if the bill should become a law. Mr. Underwood resented having his sincerity questioned and retorted sharply.

As an added chapter to the tariff program on the floor, Mr. Underwood just before adjournment announced to the house the failure of the House conferees to reach any agreement with the San ate on the sugar tariff revision measure. The House voted to send the bill back to conference with instructions that the House conferees refused to agree to the Senate amendments.

The debate of the cotton bill in the Senate was short. The amendment offered by Senator La Follette was indentical Representative Hill of Connecticut and which then received the support of the majority of the republicans.
